

**CITY OF MANTECA, LATHROP, AND DUTRA FARMS, WATER QUALITY
CONTROL FACILITY, San Joaquin County**

The City of Manteca owns and operates a wastewater collection, treatment, and disposal system, and provides sewerage service to the City of Manteca and the City of Lathrop. On 19 March 2004, the Regional Water Quality Control Board adopted Waste Discharge Requirements Order No. R5-2004-0028, NPDES No. CA0081558, prescribing waste discharge requirements for the City of Manteca Wastewater Quality Control Facility (WQCF). Due to significant changes in facility operations and biosolids disposal practices at the WQCF, the City of Manteca has provided new information to the Regional Board and has requested modifications to the effluent limitations for bromodichloromethane and dibromochloromethane, and modifications to Monitoring and Reporting Program (MRP) Order No. R5-2004-0028 for biosolids and effluent oil and grease monitoring. Based on the new information, a resolution is proposed to amend Order No. R5-2004-0028 to address the request. (JDM)
